3 Service wider range of clients, across geographies and client type (asset owners, asset managers and investment banks)

Scientific Beta's New Pillar of Growth

Adding ESG/Climate solutions to Smart Beta Pillar

- Set up in 2012 to transfer the results of its research in the area of equity portfolio construction and risk control to the industry in the form of transparent and low-cost strategies.
- Developed two types of expertise that correspond to two major concerns for investors:
 - Smart beta, and more particularly factor investing.
 - ESG, and particularly climate investing.
- Since acquisition, accelerated investments in the area of climate investing as part of the SGX Sustainable Exchange strategy.

- Devoting more than 40% of its R&D investment to climate investing and more than 45% of its assets under replication refer to indices with an ESG or climate flavour.
- EDHEC and Scientific Beta have set up a EUR 1 million/year ESG Research Chair at EDHEC Business
 School.

- Open interest and volume market share of the SGX FTSE Taiwan futures contract remain >80% and >90% respectively
- Exchange venue plays a significant role in determining liquidity flows
- We attribute our success in retaining liquidity in the SGX FTSE Taiwan futures contract to:
 - The trust we have built with our customers;
 - The value that our multi-asset offering brings to them; and
 - The significant benefits the SGX ecosystem offers to the investment community
- Impact to average fee per contract:
 - Our derivatives average fee per contract was lower by 15% q-o-q to \$1.16, mainly due to the offering of an introductory fee for the new SGX FTSE Asia expansion suite
 - We expect our average fee per contract to improve as our FTSE Taiwan and new contracts run-in over the next two quarters

- Scientific Beta to launch Smart Green offering in 3Q FY21

Looking ahead ...

We expect global economies to recover as COVID-19 vaccines become more widely available.

Investments into cash equities is anticipated to grow, while portfolio risk management activities may rise due to shifts in US policies under its new administration.

We expect the medium-term revenue contribution of our recently acquired subsidiaries Scientific Beta and BidFX to grow beyond their current 6%, as they tap on an enlarged network of resources within the SGX group to execute their growth plans.

We launched SGX FIRST (Future In Reshaping Sustainability Together) to expand our sustainability capabilities and drive sustainable practices in our financial ecosystem.
