

## **SGX derivatives volume grows in April**

Singapore Exchange (SGX) today said its derivatives market experienced higher volume in April.

### Securities

- Securities daily average value shrank 4% year on year to \$1.6 billion due to continued market uncertainties. Total securities turnover was \$32.3 billion, down 8%.
- Exchange traded fund turnover grew 43% year on year to \$696 million.

### Derivatives

- Derivatives daily average volume was up 12% from a year earlier at 252,401 contracts while total volume rose 3% to 4.9 million contracts.
- Nifty futures trading increased 37% from a year earlier to 1.1 million contracts while FTSE China A50 futures volume was 193,884 contracts in April.

### Clearing

- Clearing of OTC interest rate swaps continued to grow with April volume at a notional US\$33.6 billion and cumulative volume since the November 2010 launch at a notional US\$70.5 billion.
