

Singapore Exchange Welcomes Leader Environmental Technologies Limited

16 July 2010 – Singapore Exchange (SGX) announced today that Leader Environmental Technologies Limited (Leader Environmental Technologies) has commenced trading on the SGX Mainboard, under the ticker symbol "LeaderEnv". Leader Environmental Technologies is an environmental protection solutions provider primarily for industrial waste-gas and wastewater emissions in the People's Republic of China (PRC).

Mr. Lim Poh Yeow, Chief Financial Officer at Leader Environmental Technologies Limited said, "We are honored to work with SGX on the successful listing of Leader Environmental Technologies Limited. Our management strongly believes that the listing platform in Singapore will open doors to many opportunities as well as raise the Group's profile in the environmental protection industry in China. We believe that the future outlook for the Group is bright. With the PRC government's continued emphasis on environmental protection and pollution control, it will lead to the growing demand for highly efficient industrial waste- gas treatment equipment and systems which we are well positioned to capitalise".

"We welcome Leader Environmental Technologies to list on SGX. Clean technology is a fast-growing sector in Singapore, and SGX can provide its companies with a conducive environment to fund their growth in Asia and beyond," said Mr Lawrence Wong, Executive Vice President and Head of Listings, SGX.

Leader Environmental Technologies Limited, with an estimated market capitalisation of S\$92.74 million brings the total number of clean technology companies listed on SGX to 28 with a combined market capitalisation of about S\$5 billion.
