Index investing and the 'Smart Beta' market

Factor investing has seen significant growth in recent years, with assets using smart beta and factor-based strategies forecast to reach US\$2.7 trillion by 2020¹, and there is further room for growth.

Global Factor & Smart Beta AUM (USD billion)¹

Scientific Beta broadens SGX's index offering through the fast-growing 'Smart Beta' index space

- Established in 2012 by EDHEC-Risk Institute Asia
- Award winning 'Smart Beta' index firm which develops, produces and promotes multi- and single-factor indices
- HQ in Singapore; offices in France, UK and US
- Asset owner-focused client base

Scientific Beta Assets Under Replication (US\$ bn)

- ✓ High priority growth area for SGX
- ✓ Well-positioned in a high-growth market
- ✓ Financially attractive
- ✓ Brings unique capabilities to our Index business
- ✓ Exciting product innovation opportunities
- ✓ Strong potential linkages with SGX's product platform

Strategically elevates SGX's Index business

- 1 Broad index offering, with (a) strong research-based index construction capabilities, (b) index calculation services, and (c) expansion into smart ESG and green investing

- 2 Develop wider suite of products, leveraging SGX's product capabilities and Scientific Beta's academic rigor

- 3 Service wider range of clients, across geographies and client type (asset owners, asset managers and investment banks)

Scientific Beta's New Pillar of Growth

Adding ESG/Climate solutions to Smart Beta Pillar

- Set up in 2012 to transfer the results of its research in the area of equity portfolio construction and risk control to the industry in the form of transparent and low-cost strategies.
- Developed two types of expertise that correspond to two major concerns for investors:
 - Smart beta, and more particularly factor investing.
 - ESG, and particularly climate investing.
- Since acquisition, accelerated investments in the area of climate investing as part of the SGX Sustainable Exchange strategy.
- Devoting more than 40% of its R&D investment to climate investing and more than 45% of its assets under replication refer to indices with an ESG or climate flavour.
- EDHEC and Scientific Beta have set up a EUR 1 million/year ESG Research Chair at EDHEC Business School.

Smart Factor Indices

Scientific Beta's smart factor indices provide robust exposure to long-term rewarded factors, good diversification of unrewarded risks, and ESG/Low Carbon options to enable a consistent and effective investor engagement policy.

ESG/Climate Indices

Scientific Beta's indices with pure climate objectives allow climate exclusions and weightings to be combined in order to translate corporate climate alignment engagement into portfolio decisions.

- Volume of Aggregate SGX MSCI/FTSE Taiwan contracts increased 5% y-o-y
- Open interest and volume market share of the SGX FTSE Taiwan futures contract remain >80% and >90% respectively
- Exchange venue plays a significant role in determining liquidity flows

- We attribute our success in retaining liquidity in the SGX FTSE Taiwan futures contract to:
 - The trust we have built with our customers;
 - The value that our multi-asset offering brings to them; and
 - The significant benefits the SGX ecosystem offers to the investment community
- Impact to average fee per contract:
 - Our derivatives average fee per contract was lower by 15% q-o-q to \$1.16, mainly due to the offering of an introductory fee for the new SGX FTSE Asia expansion suite
 - We expect our average fee per contract to improve as our FTSE Taiwan and new contracts run-in over the next two quarters

Looking ahead ...

We expect global economies to recover as COVID-19 vaccines become more widely available.

Investments into cash equities is anticipated to grow, while portfolio risk management activities may rise due to shifts in US policies under its new administration.

We expect the medium-term revenue contribution of our recently acquired subsidiaries Scientific Beta and BidFX to grow beyond their current 6%, as they tap on an enlarged network of resources within the SGX group to execute their growth plans.

We launched SGX FIRST (Future In Reshaping Sustainability Together) to expand our sustainability capabilities and drive sustainable practices in our financial ecosystem.

Statements in this presentation that are not historical facts are statements of future expectations with respect to the financial conditions, results of operations and businesses, and related plans and objectives. These forward-looking statements are based on SGX's current intentions, plans, expectations, assumptions and views about future events and are subject to risks, uncertainties and other factors, many of which are outside SGX's control. Because actual results, performance or events could differ materially from SGX's current intentions, plans, expectations, views and assumptions about the future, such forward-looking statements are not, and should not be construed as a representation as to future performance of SGX. It should be noted that the actual performance of SGX may vary significantly from such statements.

This presentation is being made available to certain authorised recipients for their general information only.

While SGX and its affiliates have taken reasonable care to ensure the accuracy and completeness of the information provided in this presentation, they will not be liable for any loss or damage of any kind (whether direct, indirect or consequential losses or other economic loss of any kind) suffered due to any omission, error, inaccuracy, incompleteness, or otherwise, any reliance on such information. Neither SGX nor any of its affiliates shall be liable for the content of information provided by or quoted from third parties. Examples provided are for illustrative purposes only. The information in this presentation is subject to change without notice.
